

All-In-One 3D Parcel Dimensioner, 70 lb Shipping Scale, and Shipping Label Printer

Turnkey Pro Shipping Workstation for Accurate & Fast Order Fulfillment

www.onshipelite.com

NTEP-Certified Shipping Scale (70-lb Capacity)

- Accurately weighs parcels up to 70-pound parcels via a NTEP certified scale
- Reduces carrier re-weighs, disputes, and post-shipment billing adjustments
- Designed for fast, intuitive operation with no manual calibration required

Automated 3D Package Dimensioning

- Automatically captures accurate length, width, and height for each shipment
- Provides reliable DIM-weight data to help prevent carrier re-measurements
- Eliminates manual measuring to improve throughput and consistency

Delivery Address Validation (Powered by OnShip Elite)

- Validates shipping addresses during label creation through OnShip Elite shipping software
- Helps identify incorrect or incomplete addresses before shipment
- Reduces address correction fees, delivery exceptions, and post-shipment carrier adjustments

Quick Specs

- Footprint: 20" x 19"
- Scale capacity: 70 lb (NTEP-certified)
- Integrated shipping label printer
- All-in-one countertop design

Integrated Shipping Software Platform

- OnShip Station is delivered as a complete hardware and software workstation
- OnShip Elite multi-carrier shipping software is included with the software maintenance subscription
- OnShip Station is designed to operate exclusively as an integrated OnShip Elite solution

Outcome

- Designed to streamline shipping workflows, reduce carrier re-weighs, DIM adjustments, address correction fees, and post-shipment billing issues
